Caught in the Fog

May McAvoy - Conrad Nagel

With McAvoy and Conrad Nagel as its co-stars, and a cast which includes Charles Gerrard, Emile Chautard, Mack Swain, Ruth Cherrington and Hugh Herbert, "Caught in the Fog" promises more thrills than a house fire. The play, which was adapted by Charles Condon from a story by Jerome Kingston, centers around the activities of a gang of gem thieves who attempt to carry out their plans under cover of the impenetrable fog which shrouds the bay. Miss McAvoy, accomplice of a shrewd thief, and making her first attempt at crooked practices, is confronted by the owner of the household, Conrad Nagel, and in the exciting finale decides to go straight—into that young gentleman's arms.

OBITUARY

JOHN A. CARLSON

After an illness lasting only two days, John A. Carlson, old-timer, living ten miles northeast of Champion, died on Friday afternoon. The deceased had risen on Wednesday morning evidently in his usual good health but about nine o'clock was taken ill, and the best efforts of medical skill were unavailing in avoiding the fatal issue. The funeral took place on Sunday and was very largely attended, the deceased having been one of the most widely known farmers in the district. Rev. S. R. Hunt officiated at the church and at the grave side, having returned from Edmonton for the purpose. Beautiful flowers in great profusion testified to the wide esteem in which the deceased was held in the community.

John A. Carlson was born at Mallis, Kalmar Lan, Sweden on the 3rd day of November, 1864, and was consequently in his 65th year. In 1884 he removed to the United States, settling at St. Paul, Minn., where he married Betty Nelson on June 4th, 1885. He later farmed near Rush City, Minn., and moved to Alberta in 1906, homesteading northeast of the present townsite of Champion, where he has resided continuously until the time of his death. Of a quiet and unassuming disposition Mr. Carlson made hosts of friends in the community who will sorrow at his sudden removal. A pioneer of this district and a successful farmer he was one of those who assisted in making this section widely known for its fertility and possibilities. His passing leaves a real gap in the ranks of the old-timers.

With the exception of one son, Kenneth, who predeceased him in 1918, the immediate family of deceased, including his wife, are all living in the district. Three sons, Edwin, Norman and Ted, and one daughter, Margaret, and three grand-children survive him. Other relatives are a sister, Mrs. August Johnson, Hudson, Wis.; two brothers Carl of Stillwater, Minn., and Fred of Minneapolis; two half brothers, Axel Gustafson of Minneapolis, and Otto living in Sweden.

School Reopens

September 3rd

The Champion public and high school will re-open for the Fall term on Tuesday morning, September 3rd. The following are the members of the teaching staff and their respective rooms:

Principal, Roy I. Baker B. Sc., High School assistant, Miss A. Irvine, B. A.

Public School, Miss M. Archer grades 7 and 8, Miss V. Boniface grades 5 and 6, Miss B. McFall grades 3 and 4, Miss M. L. Cameron grades 1 and 2.

Gregory A. Fath will have charge of the Long South West van route, the other routes being in charge of the same drivers as last year.

S. C. Milliken is continuing as janitor.

The Trustees request the co-operation of the parents and scholars with the teachers to make this the most successful school term in the history of Champion.

The pastor of the Champion United Church took part in the induction service held at Carmangay United Church on Monday, August 19th, and also rendered a sacred solo very acceptably. Rev. Finley of Parkland made an excellent chairman for the evening and referred to his visit to Carmangay in 1911. During the social opportunity which followed many "Old Timers" exchanged stories of services held in the early homesteading days as there was a very representative gathering present. The chairman urged all to try to arrange to attend Dr. Charles Endicott's lecture on Monday, September 2nd, at Carmangay.

Mrs. J. T. Stephenson received the sad news of the death of her brother-in-law at Victoria, recently. He was stung by a hornet on the head and became unconscious in less than an hour dying very shortly after. The deceased was 51 years old and leaves a wife and two daughters. He was the son of W. J. Mitchell, druggist, of Winnipeg.

Preserving

Next week will be the time for preserving Peaches, Prunes and Pears.

Let us quote you our prices before you buy. You will be completely satisfied with your purchases and you will receive prompt and courteous service.

NOTES AND COMMENT.

It begins to look as though feed would be quite a problem even here before there is grass in the spring.

The increased price of wheat this year is to a considerable extent a compensation for the smaller number of bushels that will be threshed. The present slight weakness of the market will not likely last for any considerable time.

British troops are being rushed to Palestine and Russia and China are still gathering troops for a fight. We do not get away from warlike proceedings for any length of time.

The tourist traffic in this country is travelling principally with Alberta licenses on the autos. If we get much better roads everybody will soon leave home for good.

There is no other country in the world where a crop could finish as satisfactorily as this year's with the same kind of weather.

Forest fires in British Columbia are gradually decreasing in violence and are confined to smaller areas. In consequence the pall of smoke on the adjacent prairies is also lighter.

Harvest is rapidly nearing completion and with the weather continuing as favorable as it has been so far since cutting commenced it will all be over almost before we know it.

With refueling planes now making such ready connections with other air ships which desire to refuel without landing, "gasoline stations" are virtually being established in the air. How long will it be before one can get a "hot dog" on the wing, as it were?—Christian Science Monitor.

There are so many of the men who used to rock the boat tearing along our highways in high-powered cars provided with glaring headlights, spot light, and raucous horn, preceded by glass-shattering pebbles and followed by heavy curses (often from the ditch), that the closing of this Glacier Park to the automobile would add a pleasant sense of peace to the park guest and harmonize with his environment. As Bermuda, entirely free from the sight, sound and smell of the automobile, proves so delightful to so many annual visitors, so a motorless Glacier Park could provide that change, variety and harmony with nature so essential to contract the nervous strain of his hurrying, noisy cars, and at the same time in no way interfere with the scheme of interpark highways, on account of the Big Bend route now being completed.—Bulletin Canadian National Parks Association.

Alberta Roads Have Edge on B.C.

Alberta clearly leads its sister province of British Columbia in highway building, in the opinion of J. W. Glenwright, vice president of the Edmonton branch of the Alberta Motor Association. He recently returned from a tour of the southern districts of the two provinces and found that the coast province "was certainly lagging behind when it came to road building."

On this trip Mr. Glenwright travelled by way of the Crow's Nest Pass, returning over the Windermere highway. He found the roads in Southern Alberta absolutely first-class, and regretted that British Columbia, at least the sections he drove over, was far behind in that respect.

"In southern British Columbia the roads had not been properly built, as they were narrow and dangerous and apparently little attention had been given to proper maintenance," said Mr. Glenwright. "There were deep ruts, especially between Cranbrook and Kaslo, at which point one takes the boat for Nelson."

"On our Alberta roads the great danger is loose gravel. From Red Deer to Edmonton it did not appear that the road was being properly maintained, as there were some bad holes encountered. It is apparent that a policy of continuous maintenance must be adopted to give the service demanded by the auto traffic of today."—Alberta Motor Association Press Sheet.

These warm sunny days it is a pleasure to see the numerous combines accumulating the golden grain Grade No. 1 wheat is prevalent. With good prices and a fair yield our farmers are not worrying over the season's prospects.

Lutheran Church Services

The Lutheran church still preaches the Gospel of Christ and Him crucified. Lutheran services will be held, the Lord willing, at the Lutheran parsonage on Sunday, Sept. 1st, at 11:00 a.m. Sunday School after services.

You are heartily invited to attend and bring your friends.

Section of Lomond Swept By Fire

Heroic Efforts of Citizens Together With Assistance From Outside Avert More Extensive Losses.

A fire of unknown origin starting behind the dance hall or the livery barn Tuesday evening totally destroyed the buildings between P. L. Frost's office and the telephone building. There was great danger of the fire spreading to the Commercial hotel, the Kyllingstad & Bogart garage, the telephone office, P. L. Frost's and the bank building. Several of these buildings did catch fire but owing to the efforts of all available men and many ladies the danger was averted. This is the first time the new chemical wagon has been used and although it took several minutes to get it functioning quite properly it certainly saved the citizens its cost several times over before the blaze was finally under control. Residents of Travers and Armada attracted by the glare caused to offer help. We have cause to thank all heartily, particularly Mr. P. Kimmet of Travers, who worked like a Trojan. Had the wind been in the north it is probable that the entire business section would have been swept out. It is believed that very little insurance was carried by the owners affected.

The United Church of Canada

UNITED CHURCH SERVICES

The Champion church service will be combined with the Sunday school session, 11 a.m. on Sunday, July 14th, and the last three Sundays of August after the pastor's return from his holidays. Everyone is heartily invited.

The
Pyramids

of the Prairies

The Pyramids of Egypt were built for the glory of ruling dynasties by toiling myriads of slaves and with wealth wrung from needy tax-paying citizens. Generation after generation of desperate toil with primitive tools built these gigantic monuments, the pride of a ruling class.

The Wheat Pool Farmers of Western Canada are building an infinitely more serviceable monument—a great system of elevators owned by themselves and operated for their protection and benefit. By means of an annual contribution of two cents for each bushel of wheat the Pool members of Alberta have provided over six million dollars for the construction of their elevator utilities. Bound together by the ties of co-operation, these Pool farmers are working out a plan for their own economic freedom.

The clear-sighted, far-seeing Pool member is extremely loyal to his own elevator system, realizing its value. Not only are Pool elevators operated for the Pool membership at bare cost, but they provide a strong shield to guard the welfare of the producer.

The Wheat Pool Expects

Every Pool Farmer To Do His Duty

Life In a Small Town

"Why should anyone want to live in a small town or village when there are so many cities in the land?"

We frequently hear this question asked, mostly by city dwellers, it is true and so we go to the small town for the answer.

One night recently half the 700 population of a small town in Kansas gathered in the opera house. The occasion was a farewell to a man who had lived among them for years, but who had been called to a larger city by his work. And this is what the man said to his neighbors:

"I am going away for a time, and I have taken this method of saying good-bye to you. I want to tell you that this town in which I have lived for so many years is my home, and always will be. And I will tell you why I know all of you. You all know me. From my young manhood you have been good to me. When sick

you visited me. When my family was growing up you were kind to them. You have been kind to us all and always. Your doors have ever been open. We have never had an ache or pain or misfortune that you did not share and help us to bear. If we were in hard luck you helped us. You watched with us in our sickness, comforted us in our sorrow. This is why this little town is my home and always will be. I love it and I love you."

If you can read this and understand it you will realize something of the pull the small town has on the heart-string of its inhabitants. The small town takes care of its own, of those who live in it. There is the real spirit of neighborliness the touch of human sympathy and helpfulness that is the finest thing in the world. There is the soul of brotherly love, the heart that beats for the service of humanity. No stranger, do not pity the dwellers in small towns, envy them.—Grit.

The Old Guide's Warning

The old guide knows that careless hunters cause many forest fires resulting in the destruction of excellent hunting grounds, as well as valuable timber. The good hunter is careful with fire in the woods.

Issued by authority of
Honorable Charles Stewart,
Minister of the Interior.

WORLD HAPPENINGS
BRIEFLY TOLD

Canada was the principal country with which the United States traded in June, leading all other countries in both exports and imports.

Eric Remarque, author of "All Quiet on the Western Front," may be the recipient of the next Nobel prize for literature. It was reported from Stockholm.

The British Columbia Government recently announced the distribution of liquor profits amounting to \$852,610.45 covering the six-months period ended March 31.

The first repatriation of the small crop in western Canada was felt at Sarina, when the John Gooding Thresher Company reduced its operating staff by one-third.

Hon. Auley Morrison, Chief Justice of British Columbia, was among those who received the degree of doctor of laws at the graduation exercises, at Dalhousie University, on August 28.

Closer co-operation in air transport matters throughout the world began between Great Britain and France, was discussed at a meeting of Lord Thomson and Laurent Eynac, respective Ministers for Air.

Miss K. Bloomfield, 24, is the first woman in the state of Victoria, Australia, to gain an air pilot's license. She has passed her final tests—they were pretty severe ones at that—with flying colors.

The Graf Zeppelin's flight from Friedrichshafen brought forth a \$200,000 project for regular German-Russian-Japanese air service with terminals in each of the three countries. It was announced that plans for the scheme are completed.

Sir Frederick Williams-Taylor, of Montreal, general manager of the Bank of Montreal, has resigned to assume the position of vice-president of the bank. H. B. MacKenzie, formerly assistant general manager, succeeds Sir Frederick as general manager.

Big Jamboree Over

Many Friendships Made At Gathering Of Boy Scouts

Tens of thousands of boys trilled out of Arrowood Park, England, when camp was broken and the great world jamboree of Boy Scouts came to an end. Fifty thousand boys left for their homes in nearly fifty different countries.

The previous night was passed largely in leaving-taking as big contingents of boys toured the camp and bade their comrades farewell. At dawn they began packing, and by the park on their homeward journey to far countries of the earth. They took with them the farewell message from the chief scout issued before he left the camp, the keynote of which was "From now on the scout symbol of peace in a global world."

The total number of visitors was 214,422. The next jamboree will be held in 1933. The place will be determined at a conference to be held at Salzburg, Austria.

Development Of Peace River

Country Has Gone Ahead Rapidly In Last Few Years

The first shipment of grain out of the Peace River District, was made up of three cars of wheat hauled by train 85 miles from Vancouver to Reno. There were no highways or telephones, and only two small rural stores then. Today, there are 1,650,000 acres under cultivation, with a prospective crop of 15,000,000 bushels. Population has increased from 8,000 to 50,000; there are schools, churches, flourishing stores, elevators, electric light plants, highways and telephones.

The farmer may hatch his chickens by electricity, and use the same electric light instead of sunlight, and finally fry them for the table by the use of an electric range.

Church At Jasper Is
Soldier's Monument

Gift of English Lady In Memory Of Her Son

Unique among the churches of Canada is the little church of St. John and St. George, of Jasper, which was consecrated recently by the Bishop of Edmonton. The building, a beautiful structure of stone and stained glass, with a tiled roof, was built at a cost of \$17,000, from a design by A. H. Calderon, of Edmonton, and is a gift to the parish from a lady in England, who wishes her name to remain anonymous.

It was presented in memory of her son who was killed in war, and beneath the corner stone, which was laid last year by His Excellency The Governor-General, lies the testament which was found on the young man's body when he was carried out of "No Man's Land." The furnishings and fittings of the church were also the gift of the unknown donor, while the bell was presented by Viscount Willingdon.

May Kill His Art

Russian Who Makes Pictures In Human Hair Decries Hobnob

G. Boruchoff, the Russian artist who has received a certain distinction for his pictures in human hair, fears that the hobnobbing fashion may kill his art. He needs long strands for his work, and the supply of them is becoming shorter and shorter. At first glance Boruchoff's pictures are said to be indistinguishable from oil paintings. He blends the various shades of hair on his palette as an oil painter mixes his colors. His canvas is a piece of silk or linen cloth, and his brush a hair-pulling needle. His method of weaving the hair into the cloth, he says, is similar to that used in making the famous Greek tapestries. Boruchoff started producing his pictures at 10 years of age when apprenticed to a hairdresser, and while a war prisoner in Germany he spent his leisure in practice.

Winnipeg Newspaper Union

3 1/4 cups sugar.
1 1/2 cup flour.
1 1/2 teaspoon salt.
1 1/2 cups boiling water.
Juice and rind of 1 orange.
3 eggs.
Mix sugar, flour and salt; add boiling water, stirring constantly. Cook 15 minutes. Add well-beaten egg yolks, rind and juice of fruit and cook until thick. Cool. Make meringue of the whites of the egg, 3/4 cup powdered sugar and 1 teaspoon lemon juice. Whip one-fourth of meringue into custard mixture and turn into baked pie shell. Cover with remaining meringue and brown in moderate oven.

GREEN TOMATO PRESERVE
3 pounds sugar.
4 pounds green tomatoes.
3 lemons.
1/2 tablespoon preserved ginger.
The above table merely gives the correct proportions. Most cooks will desire to prepare several times this amount at a time. Wash the tomatoes, remove any dark spots about the stems, and weigh. Cover with boiling water, let stand five minutes, drain and slice into a preserving-kettle, placing a layer of tomatoes, one of sliced lemon, then the sugar with the ginger sprinkled over it. Let the mixture stand overnight. Drain and boil the syrup for ten minutes. Skim, add the tomatoes and cook rapidly until they are clear. Pour into clean, hot jars and seal.

VOGUE OF PLAITS
Fluttering plaited skirts is such an attractive fashion for growing girls of 6, 8, 10, 12 and 14 years, as seen in Style No. 605 with flat hipline, and simple bodice with neckline trimmed with plaited collar. Long sleeves also have turn-back plaited cuffs. Neckline and hipline bows and an inconspicuous tuck in printed voile in brown and white with brown velvet bows, make shade in shading with lace omitted, and sports weight linen in orchid shade with white organdy plaited collar and cuffs are dainty and practical suggestions. It can also be made with short sleeves as shown in small back views. For early fall, it will be delightfully smart, made of navy blue wool crepe with vivid red crepe plaited collar and cuffs. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin around pattern.

How To Order Patterns

The museum of the American Indian, in New York, grew out of the purchase by George G. Hay of a Navajo Indian shirt.

Burns are popularly painted red because oxide of iron paint, which is cheap and durable, can be obtained in red color only.

AN OUTSTANDING EXHIBIT

In his address before the Rotary Club, during the Calgary Exhibition and Stampede, Hon. J. D. McGregor, Lieutenant-Governor of Manitoba, for many years Canada's most outstanding live-stock man, referred especially to the demonstration put on by the C.P.R. Supply Farm, of Strathmore, which emphasized productive possibilities of good dairy cows. Mr. McGregor said that he considered it to be the best, from an educational point of view, that he had ever seen at any live-stock show.

As shown in the accompanying photograph, five cows of various ages were used to emphasize that high production increases profits. Two mature cows and one four-year-old heifer, one three-year-old heifer, and one two-year-old heifer were included in the group. Each of these had finished an official record within five months, and their total production for 365 days was 17,583 lbs. of milk.

The first cow to the left, "Strathmore Sylvia-52340" by producing 29,371 lbs. of milk was recognized to be the highest milk producer in Canada to finish an official record within five months of the past year and a half. The second cow, "Delvedere De Kol Ruby-52,632," finished on June 14th, with

27,892 lbs. of milk, and immediately was shipped to Brandon, where she won second prize in very strong competition. Her yearling heifer was first at Brandon, Calgary, Edmonton, Saskatoon and Regina exhibitions, and was Junior Champion at Calgary and Regina.

The next is "Valley Farm Parva Regis-154120." She produced 22,927 lbs. of milk, and 930 lbs. of butter, which is 2,297 lbs. of milk and 223 lbs. of butter more than the best two-year-old record reported in Canada in 1928.

The four-year-old next in line, Strathmore Tocaline Sylvia-11,414-4, produced 23,850 lbs. of milk and 1,052 lbs. of butter; while the one on the right, "Strathmore Lassie Sylvia-13,050-1," as a three-year-old produced 23,568 lbs. of milk and 958 lbs. of butter.

According to the Dairy Commissioner of the Province of Alberta, the average dairy cow in that province produces 3,500 lbs. of milk per cent. milk. These five cows produced as much as 32 average Alberta dairy cows. Their milk, sold to the Union Milk Co., Calgary, at regular dairy men's prices, brought \$3,214.10, and an average of \$642.82 per cow. This

revenue returned more than \$475.00 per cow above feed costs.

The milk cans in the picture were used to illustrate the amount of milk produced in one year by Strathmore. This exhibit attracted a constant stream of visitors who spent a good deal of time studying the material attractively displayed on show cards.

There are approximately 600 purebred Holsteins in the famous herd at Strathmore, Alberta. The show herd of 15 head won 100 first prize at eight major exhibitions in 1928. Under the advanced registry system of the Holstein-Friesian Association of Canada, there are 40 Gold Medal and 73 Excellent cows in this herd. This is the largest number of Gold Medals in any herd in the world.

Some very distinguished visitors happened to come along just as this photograph was about to be taken. The two ladies are Dowager Lady Pentland and her daughter, Hon. Miss Sinclair. The gentlemen are Lord Pentland and, on the left, Mr. George H. Jones, manager of the Strathmore Farm.

Test For Your Eyes
Normal Vision Sees Objects Clearly

Are you good at judging distances? It is said if you have normal eyesight you should be able to see a man's eyes at fifty yards; at one hundred yards you should be able to see his coat; and at three hundred yards you may just see his face, while the color of his clothes can be distinguished at four hundred yards. Of course, on a clear day, things look nearer than when the day is cloudy.

Large Production Needed
Agricultural goods is what is necessary to Canada if the country is to continue as an exporter of agricultural products," declared Hon. McArthur, Federal Minister of Agriculture, in a speech made at Vancouver's 20th annual exhibition.

SUNDAY SCHOOL LESSON

SEPTEMBER 1

EXRA'S RETURN TO JERUSALEM

Golden Text: "The hand of our God is upon all them that seek him, for ever."—Ezra 1:5.

Lesson: Ezra 7:1 to 8:36.

Devotional Reading: Psalm 63:1-4.

Explanations and Comments
With the Permission Of Artaxerxes, Ezra, Governor of Judah, 7:6-13, —Ezra was a descendant of Seraiah, a chief priest during the reign of the last King of Judah, and traced his ancestry back to Aaron. He was a ready scholar of the law which the Lord God of Israel had given. He studied the law, and not only copied it but interpreted it. He requested permission from King Artaxerxes to go to Jerusalem, and this the king readily granted. With a company of Jews who wished to settle in Judea, and with priests, scribes and singers for the temple service, porters to keep the temple gates (1 Ch. ii.17), and Nehemiah, servants for the temple, Ezra set out for Jerusalem the first month (Nisan, March-April), after a journey of nearly four months purpose in going to Jerusalem was to see that the law of the Lord was the law of the people there. As for himself, he had "set his heart to seek the law of the Lord, and what was more, 'to do it.'"

More knowing about other's needs or mere expression of regret at their needs does not avail; the true philanthropist is one who knows and sympathizes with the needs of the people, and in the words of Horace Walpole, "if you never find the time for doing it, have the frankness to confess that your good intentions are only a dream."

The One Volume Commentary states that Ezra remained in Babylon, and who were surrounded by a population wholly heathen, and who were idolaters. The reformers by a much deeper line of cleavage than the Jews of the Babylonian captivity, and a higher standard of religious devotion prevailed among them; consequently, when the religious unity of the people of Jerusalem became known at Babylon, Ezra was sent to inquire into it (verse 14), to introduce reforms, and to enforce the observance of the Law by means of penalties (verse 29). Artaxerxes not only granted Ezra's request, but also gave him gold and silver for the temple, and also a letter in which he directed him to do whatever Ezra might ask. "Blessed be Jehovah, the God of our fathers," who has made the Jews a peculiar people, a thing as this in the king's heart, to send him, and to give him power, and to extend lovingkindness unto me."

Victim Of June Blizzard
Lost a blizzard that howled down out of the Arctic on June 21 last, Ivan McKay Christie, Bathurst Inlet trapper, was frozen to death.

Christie, who was a trapper, was killed alive by the search party that set out on the trapper's trail after he had been missing for some time, and is now at the Royal Canadian Mounted Police northern headquarters at Herschel Island. Christie's body was buried at Bathurst Inlet.

BIG OPPORTUNITY FOR CANADA TO SECURE TRADE

Vancouver—Vancouver's strategic position for trade with the Orient, Canada takes full advantage of the gradual awakening of hundreds of millions of Chinese to the value of modern machinery and, more important, import the food quantities of wheat as compared with rice, was described by Sir Henry Thornton, president of the C.N.R.

At a meeting tendered by the major and aldermen to the president and regional officers of the C.N.R., Sir Henry pointed to China as a stumbling block awakening, perhaps by sections, but nevertheless awakening.

"Hundreds of millions of people are there who have not yet become alive to the fruits of civilization," the speaker declared. "But they are awakening to the value of implements, machinery and railways, and what is more important still to Canada, is the food value of wheat in preference to rice. The demand, which will follow in the train of this awakening is an alluring field for this dominion, and Vancouver is the port through which the bulk of the business with that country must be done."

Canada would be well advised as a nation to systematically and its concentrated fashion attack the opportunities for trade in China and get in on the ground floor.

New Anaesthetic Gas

Inventor Claims It Is More Rapid and Recovery Is Quicker

Toronto—The Mail and Empire publishes the following special despatch from Boston.

A new anaesthetic gas has been prepared by Dr. G. H. W. Lucas, of Philadelphia, and Dr. C. H. Henderson, of the University of Toronto. It was explained at the International Physiological congress at the Harvard medical school. They claim for it properties which make it appear as similar to nitrous oxide, but with more satisfactory after-effects.

It is apparently a carbolic gas. Apparently anaesthesia is rapid, with little or no struggle, and recovery takes place almost as rapidly.

Animals were anaesthetized on three successive days for periods of two hours without showing any apparent subsequent toxic effects. Respiration is of a normal depth, and the blood pressure rises slightly or remains normal.

Buys Canadian Cars

Australia Good Customer But Buys Cycles From England

Canberra, Australia.—Out of 100,600 complete motor cars imported to Australia in the 12 months ending June 30, 68 per cent. came from the United States, 23 per cent. Canadian, and the remaining 11 per cent. English.

The scales were turned when it came to motor-cycles, however, for more than 80 per cent. of the motor-cycles imported in the 12 months came from Great Britain.

To Be Deported

Sixty British Subjects At Winnipeg Refuse To Work

Winnipeg.—Sixty British immigrants, who came to Canada under the assisted passage scheme, have here for the Atlantic seaboard under deportation arrangements. The men came to Canada about four months ago.

At the immigration hall here it was declared the men, with few exceptions, not only refuse farm work, but also any kind of work, insisting on being returned home.

Speeding Up Mail Delivery

New York, N.Y.—Catalpa, on the deck of the North German Lloyd liner "Bremen" at 6 p.m., while 200 miles from shore, the seaplane New York, brought five sacks of mail to the liner's Brooklyn pier at 7:20 o'clock. This speeded the delivery of the 2,000 letters and post cards to about six hours.

Lindbergh Chosen As Pilot

New York—Col. Charles A. Lindbergh will pilot the first plane on a 1,240-mile extension of the Pan-American Airways line to South America. J. T. Triggs, president of the line, has announced.

W. N. U. 1600

Facing Grain Shortage

Russia Will Have To Import Wheat Says Soviet Official

London, England.—A wheat shortage in Russia was indicated today in an Exchange Telegraph despatch from Moscow, via Riga.

The despatch said that Michael Kalinin, president of the Soviet Central Executive Committee, despite his previous prediction that the Soviet harvest would be 5,000,000 tons greater than in 1928, was now reported to have said that Russia must import 50,000,000 rubles worth of grain or force the peasants to work harder.

The situation was declared to be precarious, because of a prolonged drought in the south Ukraine, Volga and Caucasus regions.

Ottawa Will Purchase Serum From Winnipeg

Many Cases Of Infantile Paralysis Make Action Necessary

Ottawa.—Mayor Arthur Ellis, of Ottawa, has agreed to purchase of serum valued at \$500 from Winnipeg for the treatment of infantile paralysis cases in the city. Mayor Ellis' action came following an interview with Dr. W. T. Shirrell, acting medical officer of the city, at which the health official recommended the purchase owing to the difficulty of obtaining the serum locally.

The number of cases reported in Ottawa to date is 15, which is regarded as an abnormal situation.

Few Harvesters From Coast

Less Than Five Hundred Have Left Vancouver This Season

Vancouver.—With a lighter crop and new labor-saving machinery in use on the prairies, only 432 harvesters have left Vancouver for the harvest season so far this season. It is announced by P. McVeety, chairman of the harvesters' association, in addition 125 have gone from Westminister and some from other centers. So far only those with jobs guaranteed have been granted the \$10 rate, but as the extent of the harvesting operation grows a few others will be allowed to take their chance of employment.

Trying To Escape Penalty

Grat Zeppelin Stowaway Jumps From Steamer But Was Recaptured

Hamburg, Germany.—Albert Buchholz, who was alleged to have stowed away on the Grat Zeppelin for his last flight to Lakehurst, is now finding it to escape the penalty. He jumped overboard from the steamer "Thuringia" as it entered this port but was soon fished out by a lighter and was locked up again on the liner. His stepfather was waiting for him here but was not allowed to take Buchholz until the courts have dealt with him.

Resigns His Position

Hon. C. M. Hamilton Succeeded By Hon. George Spence

Regina—Resignation of Hon. C. M. Hamilton, minister of agriculture for the province of Saskatchewan, was received by Premier Gardiner, to take effect immediately. Mr. Hamilton has gone to the Head of the Lakes on work regarding his appointment to the Board of Grain Commissioners of Canada.

Hon. George Spence becomes minister of agriculture, according to the announcement made this morning by Premier Gardiner.

To Test Dirigibles

London, England.—The British dirigibles R-100 and R-101 will be given shied trials during this week. It is expected the R-101 will be launched and taken to Bedford within a month, while the R-101 probably will be launched late in September. One of the dirigibles is to make a flight to Canada and the other to India.

Resigns Post

Saskatoon, Sask.—Forced by ill-health to return to his home at Rlyth, Ont., Frank Metcalf, Dominion fruit inspector in Saskatchewan for 18 years, is being succeeded here by J. G. de Jong, of Winnipeg. Mr. Metcalf was presented with an address and purse of gold by fruit men of the city.

Minister's Daughter Fined

London, England.—Miss Dorothy Thomas, youngest daughter of Rt. Hon. J. G. Thomas, was fined ten shillings in London for causing obstruction by leaving her automobile in St. Paul's churchyard.

Making Attempt To Overtake Zeppelin

French Air Ace Has Ambition To Beat Dirigible To Lakehurst

Le Bourget, France.—Dieudonne Coste, French air ace, has started on a flight around the world in pursuit of the German dirigible Graf Zeppelin, which he hoped to overtake and pass before he could reach Lakehurst, N.J., and New York.

The French aviator, who has already made a flight around the world since he crossed the south Atlantic ocean in 1927, told an intimate friend that he would attempt to break his world's non-stop distance record for aeroplanes on the first stage of his flight around the world with the Zeppelin.

RUSO-CHINESE WAR SITUATION BECOMING GRAVE

Shanghai.—The Nationalist Government semi-official Tsungting News Agency issued a despatch under the heading "The Russo-Chinese War Situation," saying "although no major developments have taken place on the Manchurian frontier during the past two days, both China and Russia are quickly preparing for war."

The Chinese authorities declared that the line throughout the entire length of the Chinese Eastern Railway as the result of the "increasing gravity of the situation as well as because of a number of incidents along the railway such as the derailing of trains as well as the recurrent acts of sabotage by both Russians and the Chinese Communists."

The despatch added that the Kirin provincial government had ordered two artillery brigades to proceed to the eastern border of Kirin province to oppose alleged raids by Russian troops. Telephone communications from Harbin to the east have been interrupted and Communist agitators are believed guilty.

A Russian communique considered to have an ominous aspect, was issued by the semi-official news agency "Tachung," stating "reliable circles indicate that the Manchurian situation may be expected soon to assume a different aspect inasmuch as the Soviet military demands have failed to produce the desired effect."

The official Nationalist News Agency has issued a bulletin under a Mukden date, saying:

"It is learned that some Japanese military officers were found within the Soviet army. It is reported that the Soviet and Japan have entered an agreement whereby Japan promised to assist Russia, the latter promising to give up fishing rights in North Saghalien in favor of Japan. In addition, it is believed that Japan is strongly opposed to the powers' intervention in the Sino-Russian crisis which move the United States has insisted to have stopped."

Will Visit U.S. Soon

Washington.—Reliable information here says that Ramsay MacDonald, British premier, will sail to U.S. within six weeks.

SERVING AT THE HAGUE

Hon. P. C. Larkin, Canada's high commissioner in London, who was appointed to represent Canada at the reparations conference, at The Hague.

Hon. P. C. Larkin, Canada's high commissioner in London, who was appointed to represent Canada at the reparations conference, at The Hague.

Cops Four Hours Off Record

But "Mauretanian" Two Hours Longer Than Bremen On Eastward Crossing

Plymouth, Eng.—The Cunard liner "Bremen," recently passed by the North German Lloyd liner "Bremen" as the speed queen of the seas, arrived here from New York on their first eastward crossing since she was overhauled in an attempt to crack the "Bremen" new record. The "Mauretanian" made the eastward crossing in 4 days, 17 hours, 40 minutes, beating her old record by four hours, but falling by two hours to make the time which the "Bremen" made on her first eastward crossing. The "Mauretanian" averaged 27.2 knots.

Four Drowned At Stettler

Boat Upset In Buffalo Lake When Storm Broke

Stettler, Alberta.—Hurled into the choppy waters of Buffalo Lake when a storm broke, two men and two boys were drowned, and another rescued, when the small boat to which he was clinging was blown to shore.

The dead are: W. J. Burrell, of Hanna and his two sons, Ernest, aged 10 years, and John, aged 12 years, and Sidney Stet, also of Hanna. The last rescued was Harold Burrell, aged 16 years, also a son of W. J. Burrell.

Georges Clemenceau Dies

Paris.—Georges Clemenceau, the aged war-time premier of France was taken suddenly ill at his country estate at St. Germain, near Bay of Biscay, in Vendee. A doctor summoned from Paris, said, "The Tiger" was over fatigued from writing a book on the war and advised a complete rest. Clemenceau is 88.

Prepare To Evacuate Rhineland

Brussels.—Belgian troops are preparing for evacuation of the second Rhineland zone on September 15, as the twentieth of The Hague conference, and as a token of the contrary spirit of Belgium toward Germany.

Americans Show Real Friendship

Help Fight Stubborn Fire On Canadian Farm Near Border

North Portal, Sask.—Fire supposedly starting from a strawstack on the Franke farm, seven miles northwest of North Portal, spread to the prairie grass and threatened the crops and buildings on this and surrounding farms. Fire fighters were sent on hand and worked into the night getting it under control, but it again broke out and a general alarm was sent out by phone and by the blowing of the fire whistle in North Portal.

Citizens, railway employees, customs and immigration officers, from both sides of the boundary, headed by Sgt. Bradley, R.C.M.P., turned out in full force, helping the farmers fight the flames for five hours, and by backfiring and plowing of fire guards prevented loss of crops and buildings except an old barn on the Franke farm. One of the fire guards prevented loss of crops and buildings except an old barn on the Franke farm. One of the fire guards prevented loss of crops and buildings except an old barn on the Franke farm.

The present exchanges between the British and American governments of which France, Italy and Japan are being kept fully informed, are apparently tending toward a meeting of the British and American governments in the near future. The present exchanges between the British and American governments of which France, Italy and Japan are being kept fully informed, are apparently tending toward a meeting of the British and American governments in the near future.

Britain and France Sure To Co-Operate

Reparations Problems Will Not Affect Friendship Says Hon. Jean Knight

Vancouver.—Problems resulting from the failure of Germany to meet her reparations payments to those countries which suffered great losses as a result of the World War, were set forth as Britain and France are concerned, in a spirit of understanding and co-operation, declared Jean Knight, first minister of France to Canada, when he addressed a luncheon meeting of the Canadian Club here.

The guest of honor said that although reparations problems offered great difficulties to the nations affected by these payments, he was sure that the friendly co-operation of Britain and France would continue.

"Equity and justice based on a thorough understanding will mark the settlement," he declared.

VARIOUS REASONS ARE GIVEN FOR GRAIN TIE-UP

Montreal.—Warnings of the European buyer, consumption of grain, are given in many European countries; the price of Canadian wheat and just "market conditions" are various reasons advanced to explain the tie-up.

Whatever the cause, there are 120 inland ships laid up in the ports between the lakes and the Atlantic and some 1,800 Canadian sailors, it is estimated, are idle; the bins of elevators here are practically full and there is no indication of a break.

While the large steamship concerns are feeling the pinch keenly, with probably half of their ships standing idle, the lot of the small owner, of the man with one or two ships, is even more serious.

The new crop will be on the move very shortly, but marketing conditions are unsatisfactory. Local dealers report that both the United States and the Argentine are underlining Canada, and while the European buyer must have a certain amount of Canadian grain, he is buying a minimum in the face of this competition, it is stated here.

Canadian seamen, out of employment, are being sent to the United States in search of employment, declared J. H. Pare, president of the Canadian Seamen's Association.

The present hold-up of grain in the port of Montreal is wholly a result of the price. The time will come when either we shall have to meet the view of the European buyer on price, or he will have to meet ours. In the meantime, our products are not moving, said Frederick Heywood, export manager for James Richardson and Sons, Limited. He held that Canadian prices were wholly a matter of market conditions and did not hold the Canadian wheat pool to blame.

BELLEVUE NAVAL PARLEY PLANS NEARLY FINAL

Washington, D.C.—Developments in the naval reduction negotiations between the United States and Great Britain are rapidly reaching the point where representatives of the two nations will be able to inform the public as to whether a conference will be held this present year.

A disclosure from the White House that Prime Minister Ramsay MacDonald is now expected to arrive at Washington early in October for a conference on the naval situation with President Hoover was interpreted by officials at Washington as strong indication not only that a naval parley will be held, probably in December, but that it will have a good chance of being successful.

The deduction drawn from the answers of the White House to questions regarding the significance of MacDonald's coming to the United States was that the British official would not be likely to make the trip to Washington without a great deal of preparation in advance for a conference.

The present exchanges between the British and American governments of which France, Italy and Japan are being kept fully informed, are apparently tending toward a meeting of the British and American governments in the near future.

Italian Planes Wrecked

Were To Be Used In Race For Schneider Cup

Sensano, Italy.—Italy is rearranging her plans to capture the Schneider Cup from Great Britain, September 7, as a result of the wrecking of two Fiat planes, and the lack of sufficient time to give the third Fiat a complete and thorough trial. Nine machines are left out of the 12 that had been promised for the speed test.

The Fiat were regarded as the masterpieces of Italian aviation. They were designed by the engineer, Giovanni, and their motors were flown by the engineer Zerbe, of the Fiat company. They are known as the lightest weight plane weighing only 2,000 pounds including the motor.

Assembling Large Seaplane

Buffalo Concern Plans To Use It On Great Lakes

Buffalo, N.Y.—A seaplane capable of carrying 50 persons, believed to be the largest in America, is being assembled at the Philadelphia navy yard. It is designed to be operated by the great lakes by a Buffalo concern. It will carry 30 passengers and a crew of 20. It is 100 feet long, approximately 94 feet, four all-coal motors of 450-horsepower each, and gasoline capacity of 10,000 gallons.

Floods Destroy Persian Town

Tehran, Persia.—A flood which drowned 100 persons and destroyed 5,000 houses, was reported from Tabriz. The custom house with \$2,000 worth of merchandise was damaged and streets washed out in places to a depth of nine feet. The government has authorized immediate expenditure of \$4,000 for the erection of levees.

Widow Placed Under Arrest

Sheshe, Sask.—Arnie Pasewsky has been placed under arrest in connection with the murder of his husband, Nick Pasewsky. The body was found shot to death August 1. John Pasewsky, who confessed to killing his father-in-law, is at present in custody at Prince Albert.

Had To Cancel Engagement

Calgary.—Mrs. Strickland with illness up to her arrival in Calgary, the Right Hon. Lord Harnham, P.C., K.B.E., master of the rolls, London, Eng., who was to have addressed the Calgary Bar Association at luncheon, was obliged to ask that the engagement be cancelled.

Daylight Flight Feasible

Howeville Field, N.Y.—Capt. Roosevelt, who was with three passengers from Glendale, Cal., in an attempt to demonstrate the feasibility of a daylight transatlantic flight, was forced to land at night, having made the trip in 19 hours and 13 minutes.

Road making in Britain used up 13,040,000 tons of granite and limestone in 1927, produced from British quarries.

PRINCE RAMSAY, MARY'S ELDEST SON

Hon. George Lascelles, older of two sons of Princess Mary, who is said to resemble his mother very little, but to be the proverbial dead image of his dad, Viscount Lascelles.

CHAMPION CHATTER

VOL. 2

Thursday, August 29, 1929

No. 28

Published in the interests of the People of Champion and Farmers of this vicinity.
GEO. L. DEPUÉ, Editor.

EDITORIAL

Over here we hear a good deal about the "Flanders poppy" and all the good. Farmers in Flanders detect the flower because it multiplies so rapidly and becomes a serious pest to the crops.

Wm. Penn Motor Oil
"Still the Best."

Judge: "What is your name?"

Prisoner: "Joshua, your honor."

Judge: "Oh, Joshua! Are you the Joshua who jangle the sun stand still?"

Prisoner: "No, your honor—I'm the Joshua who made the moon shine."

Jack Howerton is the latest addition to the growing family of Mc-Dug Combine users and

boosters. Jack gave an order on Friday afternoon and we had his machine running on Tuesday at noon. Nothing like Mc-Dug service.

According to the latest and most worthy statistics, the population of the world is about 2,600,000,000.

Our heartfelt sympathy goes out to the Carlson family in their recent bereavement.

"George, dear, don't come over for a few days, at least. My father strenuously objects to you," said golden haired Gladys.

"On what grounds does your father object to me, I want to know," returned the indignant boy.

"Well on almost any part of our quarter-section."

Frank Caldwell holds the record at present. Four men harvested and delivered 1234 bushels of grain in one day.

Needless to say by Mc-Dug combine, tractor and truck.

"I want to buy a pair of shoes for my little girl."

"Yes, man. Right this way, French kid!"

"I should say not. She is my only daughter!"

We have a real buy in a second hand Chevrolet truck.

Grain is coming in to the elevators in a constantly increasing stream, but deliveries are small compared with a year ago, indicating that considerable grain is being stored on the farms. The belief is fairly general that prices will improve as the season advances.

The Arctic Oil Co. finally accepted a site near the other oil tanks, and will be in a position to do business in a few days.

A bus line from High River to Champion will be in operation in a few days. It will connect at that point with the bus to Calgary and it will be possible to make the round trip in a shorter day than is now required by train.

Mrs. J. N. Beaudier entertained on Tuesday afternoon in honor of Mrs. J. Barker. Those present were Mesdames Tyler, Theriault, Wise, Groves, Ash, Higgins, McDougall, Cain, Miller, Fleetwood, Milliken and Clark.

Champion Theatre installs New Instrument

Champion Theatre has just installed a new Selectone musical instrument, which is the latest word for picture show music and dancing. It is a three turntable model and cost over \$900.00. With this new instrument continuous and a fast change can now be had. Dances will now be given every Saturday night after the show.

Buster Keston in "The Cameraman" and our Gang Comedy is the all comedy program for your entertainment, at the theatre this Saturday night.

Life's Tools

When a carpenter goes out to build a house, he first examines his tools to see that they are in perfect condition. A good workman will not work with damaged tools, nor with an essential tool missing. The finished result would be imperfect condition. He would not have his name associated with such.

Are parents as careful as the good workman? So many small children are to begin next month to build the foundation for the future structure of

their lives. Are their tools in perfect working order? Eyes and ears, heart and lungs—in fact, the whole structure that makes up the little body. Unless they are in perfect working condition, the child starts with a handicap that nothing in later life can overcome. The structure that he builds will be imperfect, and he is not responsible.—HIS PARENTS ARE!

No child should start school without a complete physical examination, without having defects, if any, remedied, without being in perfect working condition. That is his birth-right.

Literature on the care of children can be had from the Canadian Red Cross Society, 407 Civic Block, Edmonton, Alberta.
